

John 10:9-16

How to remain obedient to God as a shepherd?

Heavenly Father,

Deliver us from evil and enemies

Deliver us from evil and idolatry

I pray to help the wicked overcome wickedness and sin

I pray for the wicked that fall to sin and wickedness to pick themselves up to worship and be obedient to God to get passed the brazen altar to the Most Holy Place in the Tabernacle.

Thank you from keep people without mental health with a righteous soul to the Holy Spirit

Be our leader from the throne in heaven

Guide us to love one another, not hate each other.

Guide us to stop making decisions by conceit.

In Jesus name, Amen.

Proverbs 10:6-10, 18

1 John 1:8-10

1 John 2:15-17

Righteous people continue to let their heart grow as a mustard seed will continue to receive blessings and breakthrough from God's kingdom. Righteous people to God will continue to keep their mind focused on God to continue to receive blessings from the Lord and the kingdom. We need to continue to pray for the wicked because the wicked continue to be conformed to the world with sin and temptation. Wickedness are people in the world today wicked they provide violence and crime in communities. When wicked people continue to act wicked and sinful will rot. We must save the wicked and lost souls so they do not end up in hell or go to hell after they die on earth.

We must continue to serve God as a disciple to be righteous and obey God's commandments. We need to prevent foolishness in our inner circle to prevent us from falling from God's grace. We must have a wise heart as Christians and disciples to honor and live under God's grace while on earth. Read my previous bible class lessons posted on the church website at ljccbc.yolasite.com on foolishness. As Christians and disciples, we must walk with God and do not matter what people think of you. We must be living for God as a way of life to get us to heaven. We need to pray for people with mental health and anger management problems in public and private.

We need to stop hating on others by starting to appreciate your elders and people you can look up as mentors. Young people and youth need mentors to look up to stay out of trouble and live a spiritual and righteous life to God. We must understand hate is a sin and we can avoid it daily. We must understand hate is a sin and we need to avoid it daily. We must read and understand the bible daily because Christ Jesus is speaking to us when we are reading the bible daily to understand how to live with the fruit of the spirit and God. I want to add by saying church operations will be in Brooklyn, not Harlem. Tell friends and family you are a wise Christian to the kingdom. Workmanship is an important part of worship and praise in the Holy Spirit to serve God boldly. Let God control and instruct your life. I need to work on improving to Proverbs 10:18 by stopping being political and slandering people. I understand that

represents foolishness. We need to pray for the wicked because wicked people think they know it all about everything and everyone. We must restrain ourselves from sin, temptation all about unrighteousness. God will make you rich with rewards and breakthroughs from the throne in heaven. This will make your heart grow as a mustard seed as your heart grows to the kingdom. We need to hangout and be around people. There are spiritual and christian motives to God to prevent people in your inner circle from wicked ways. Doing this will help us use our freewill cautiously and righteous. That is why I said in previous sermons do not let the world validate and handicap us. These is the scriptures I read during chapel services at Star of Hope Mission in Houston while I was in the Spiritual Recovery Program at level 4 or 5 last year.

wicked=sin

sin=death

wickedness=wrath

1 John 2:15-17

Do not love sinful nature in the world.

Do not love providing hate and envy in the world.

Do not love listening to sinners and temptation that cause people to live your life unrighteous to God and Holy Spirit. It means we need to stop listening to people like Kamala Harris and Joe Biden on reproductive rights of women and abortion. We need to stop listening to women and liberals that cause us to support abortions, same-sex marriage and legalizing mariquana. We need to stay away from selfish ambitions and conceit because we need to be making our decisions from above, not on earth.
