

Series: Warfare

How to Live as a Christian?

People are all about greed and flesh living their lives in the darkness and temptation on earth. You I do not want to be around and live with people that will take advantage of you as an individual. You do not want to be in a relationship with nothing that is equal. You do not want to be in a relationship or be friends with people that will use you to take advantage of you as a person and in the household. When people do move in with people that take advantage of people and financially, those people made a mistake moving in with that person. If you know the person is wrong and know it in your heart, you do not need to be friends with that person or around those people. Some people that were raised in household with two parents know the meaning of right and wrong. People raised in two parents Christian household know the meaning of right and Wrong.

It is the reason why people are still homeless for longer periods of time because they expect more from other people. Most homeless people panhandling on the streets and asking for money, but do not give back to people and help others as much as they are supposed to do.

Way People Know People are taking advantage of them

- * People give stuff and money to others and do not get nothing back in return
- * People that depend too much on other people and do not give back in return
- * People that depend on others too much and all about too much greed

Path of unrighteousness

- * Money and greed is evil
- * using and take advantage of too much people is wrong
- * stealing is wrong
- * righteous people do not let people take advantage of them
- * no fornication or evil in your life
