"You must not commit adultery."-Exodus 20:14

You see and hear many people still like to commit adultery and fornication. That's what I preached from the pulpit a long time ago about the best way to meet a woman is at church or fellowship gathering. When you are a woman who meets a man for the first time you are sticking to the God Plan. I am talking to women only, not to meet a man at a wild party, club or bar. A man at a bar, club or wild party will be too fast for you. This will prevent unexpected pregnancies with rape and incest. Men rape women to get them unexpectedly pregnant represents the devil and Satan kingdom. Women need to stop listening to idolatry and loving the world more to live in sin. Turn to the person next to you and say do not love the world and sin more you love God. My message to women is to make sure men respect your decision to save yourselves and get to know them for the first time before having sex or fornication. My message to women is to not rush to men or while you are in a relationship with a man to have sex. You need to take your time to meet the right man for you to spend eternity with. I encourage you not to listen to the Democrats' idolatry on abortion and reproductive rights. Women need to avoid men that are out there and all about sex addiction and fornication. Women need to make Godly decisions to have children the Godly way to know the man 2,3 or 5 years to start off as friends first. Then, the women can move to the next level and think about marriage. This is the advice I tell during monthly couples retreats as co-Director of Marriage Couple Ministry. Third, after you and a man get married, you can go crazy and have sex to have children. Women that have this advice today dating men that rape and incest can go away in this nation

along with abortions. Reproductive rights do not have to be an issue in every election among women voters.
