Avoiding Obstacles in your Life

You need and should make realistic goals in your life that are easy to be accomplished. You can focus on the much harder goals last because harder goals will be a challenge for you. Donald Trump is not an honest person and not a Christian because Donald Trump is Hitler and the devil. That is 100% fact. You have to take harder goals one step at a time. People do not need to give up on tough challenges because you must look forward. Worshiping God is a challenge because sacrifices must be made righteous. God will feel you with the spirit when you are pressured.

- Have confidence in yourself
- Do not doubt yourself
- Have strength during good and bad times
- Do not be fearful and insecure of yourself
- Trust God
- No intimidation because everything people do must be peaceful and friendly

Why is the supernatural comfort of God's presence encouraging to you?

How can you support others who may fear opposition?

How can you become more courageous in the face of an impossible task?

How do you feel when you've accomplished something you didn't think you could do?

Youth and children are afraid to take challenges because they walk around act like a hoodlum and pants sagging below their behind daily. Youth and children act like they have too much time on their hands. Youth and children are satisfied to have a C average during school and hate on smarter students with A and/or B average. Youth and children hate on people with college education that is successful and sophisticated. Youth and children need to try harder and study hard, not be against education and regret it later with no skills, background, knowledge and career. Youth and children need to stop the hate, hype and immaturity.
