What Envy and Hate Lead to?

- ▶ Hate and envy lead to depression and oppression. That's why it is not Godly to judge people on earth. Everyone deals with depression in their life that led to poverty and homelessness. Also, it can lead to economic hardship and homelessness.
- ▶ Avoid getting possessions by Satan and his kingdom.
- ▶ We need to honor and respect each other as individuals like we honor our veterans and military serving on the frontlines to keep this nation safe during global war on terrorism.
- ▶ People need to stop worrying about what others think of you. God judge your heart, not other individuals that provide hate and envy, depression, and signs of deception according to sources like social workers and psychologists. This include homeless men and women in this nation.
