

God Servants on Earth is not a Joke

African-Americans and other Americans think that whatever servants like myself do is a joke. Serving God is not a joke because judgement day is real. Serving God as a cheerful giver is not a joke because people that go to church and give tithes and offerings is being real to the Lord. When people help pastors in love offerings and pay tithes/offerings, it is a good and right thing to do for the Lord and Holy Spirit. African-Americans and other Americans must believe that heaven and Holy Spirit is real.

People that negative gossip about others: those people believe God servants and serving the Lord is a joke. Some people believe that God servants and disciples giving back to the poor and low-income communities is a joke. People going to realize after they die on earth and try to get into heaven. Jesus at the throne going to tell them “sorry I cannot give them a pass.” It means they cannot be like other disciples and righteous Christians to get on the train with believers in heaven.
