

John 10:9-16

Let Us Love One Another as Shepherd to God

Heavenly Father,

I call on you to open the hearts and minds of every politician to govern with 1 John 3:17 on their minds to care more for Americans in dealing with poverty, homelessness and mental health.

Strengthen hearts of Americans dealing with tribulations.

Strengthen hearts of Americans, so their hearts can grow as a mustard seed for God's kingdom.

Open hearts to all Americans to be cheerful givers to people in need to better assist those who are struggling to get by, living paycheck to paycheck and living on fixed income.

Bless people in this nation that do not have money and income, I ask you to overcome those people's struggles that do not have any financial resources to get by daily.

In Jesus name, Amen.

1 John 3:17

When I read this scripture to myself and clients to clients at the Star of Hope Mission in Houston last year, I thought about the upper middle-class and rich not helping people in need of services. I think about the Democrats telling voters on the campaign trail what you want to hear, but they lie to voters on the campaign trail after winning the election. If Democrats 100% care for the middle-class and poor, they need to stop increasing spending and raising taxes on Americans. Democrats need to stop imposing \$1 Trillion economic regulations in the economy making people in need in this scripture to apply and seek services, goods and services daily. Seven Democrats in the Illinois legislature opposed my plan I presented personally to make it easier to start a business in Illinois. Lower and less taxes do raise incomes for American households and revenue for businesses and organizations. It will stop businesses and organizations doing business in China, Taiwan and India with the cheap cost of labor. When I read 1 John 3:17. I think about foundations making it harder for organizations to get grants for programs and operations. As an independent, I support a \$2.3 Trillion balance budget amendment for over ten years. We need to start electing more members of Congress, state legislature and general assembly, local government, to honor this scripture when they campaign for office and elect to serve in elected office. I encourage voters in this election year down the ballot to vote out incumbents and candidates for elected office that will not govern from this scripture to make policy decisions to care for more people in need so that Americans have easy access to prosperity and/or get out of poverty. We need more moderate and conservative Democrats like Joe Manchin (I-VA) to be able to work across the aisle with Republicans on economic policy.

We need pastors that care about people in need spiritually because there are too many pastors building their personal wealth through their congregation to care more for themselves. Creflo Dollar lives in a mansion and 3-4 business jets. Darrell Scott got into legal trouble during the Trump administration about him living off his congregation and never inviting members to his huge home. I do not live like that and I am proud to share my true story and testimony about my life and living situations recently. I am not a rich person and do not live off my congregation. I am a low-income man and ordained Bishop. If a pastor with millions of dollars sees a brother in need in the communities and is able to donate to other churches to support other churches in need. Politicians need to stop thinking about themselves and care more for constituents in need because it is time to ease economic regulations and care for more Americans in need

to actually care for Americans that are struggling to get by daily. This is the time we need to pray to God for breakthroughs to reduce mental health and end crime. People in need want jobs to let God guide them through their tribulations to improve their way of life spiritually and economically. People in need want to get out of poverty and stay out of homelessness into permanent housing. This is another tribulation people deal with daily in this economy. People in need want lower and less taxes to obtain rising incomes to get out of poverty. People in need want safe communities and nations by closing our borders to migrants. You see and hear people talking about their lives running in circles while dealing with homelessness and poverty. These politicians need to stop campaigning for office like they care and close their hearts to people in need after they win an election that desperately need help.

What needs to be done to care for people in need spiritually and economically?

1. Read the bible and think spiritually as a cheerful giver.
2. Read the bible and let God guide you from the kingdom in truth.
3. Pray for your needs and open your heart to God daily.
4. Pray for your needs and let your hearts grow as a mustard seed to grow your faith in the kingdom.
5. Be a cheerful giver to God and stop letting people in the struggle in their life to increase mental health in communities.
6. Be a cheerful giver and have a giving attitude to open your heart to help the poor, homelessness, friends and families.
7. We want to read and believe in 1 John 4, 2, 6,7, 15

The IRS needs to eliminate the \$600 user fee for nonprofit startups to make it easier for Americans to start nonprofits in this nation or allow nonprofit organizations to start paying taxes on their charitable contributions. Another way is to allow Americans to still start nontaxable organizations.

sin=lawlessness to God kingdom and grace
sin=devil

righteousness=purity to God kingdom and grace
righteousness=children of God
righteousness=hope in God
