What do we need to win war with the devil?

Before I came to Christ and God, I was self-centered person because I used to talk to much about myself and family used to point that out to me by listening to others. Family told me I need to engage and listen to others, not talk abuser myself. I have problems collaborating with people at school and work while I was in elementary, high school and college in Chicago. People like my grandmother are self-centered as a strong Christian living on south side of chicago because she complain about things daily. I got friends since I known since high school that blame world and society for their problems, such as living in poverty, obtaining employment, dealing with homelessness and mental health. My mother and father always told my sister and I do not let People take advantage of us as children and adults. Some people are self-centered because they focus on themselves with messed up priorities that cause people to disrespect and be hateful to others. I am no longer opinionated about things in life because I preach and talk about the facts about things and young people in society. A woman told me in downtown Detroit in 2017 that haters and people that think they know anything about you cannot judge your good heart because God can only do that.

First lady in Chicago right now is preaching to youth and children about being faithful to God, not listen and be a slave to the devil. She says she talked about God can open doors for them, so it can end idolatry and sin in your life. She distributed journals to youth and children by Youth and Young Adults Ministry to write down thoughts and problems in their life. I will living in east Detroit for 22 days because good progress is moving along while first lady and I move to the suburbs outside of Detroit and Wayne county.

Heavenly Father,

Help self-centered people on earth to stop thinking for and about themselves

Help more people listen to others that are Christian and positive that is not envy

Help us improve our collaboration with other people provide open dialogue on our views, opinions and facts .

Help us as Christians and disciples stay positive with our feelings

In Jesus name, amen
