

Avoiding Living in the Darkness, Part IV

Women and young females need to stop being and acting like the victim while making accusations for rape and incest. Women and young females know exactly what they are doing when they have sex with men and college males on college campuses. In order to stop rape and incest accusations, women and young females need to stop acting so fast on college campuses at college parties. Women need to realize that God is looking down on them every single day on what they doing to falsely accuse men of rape and incest. Women and young females know what exactly what they are doing with they gather at college parties and sex with men they do not know to get pregnant. That is their fault, not the man's fault because women and young females know exactly what they are doing when they meet unmarried men at college parties. It is the woman providing fornication and not loyal to God plan to have sex after marriage. I want to say to women in this country that do that today “shame on you.” College women and females need to be loyal to God and stop acting and being so fast to find their soulmate. Women at parties and bars need to follow God and Lord to stop acting so fast to find their soulmate. Dating pool today needs to stop acting so shallowly, find a soul mate and give yourself time to find the right person. That’s why more relationships end up badly and couples start to have problems down the road because they did not think and plan their lives wisely under God's covenant and plan. Women know they are not in the financial position to raise a child or babies need to think about what they are doing first hand when they meet for the first time to find a soulmate. What happened to the times when my family members were young back in the 1960-1970s when people used to plan and set goals for themselves to take things slow.

I want to expand on my preaching in my past sermons since 2014 to the congregation behind the pulpit every week. Men in this nation are not innocent because they like to act fast and act like they are the victim of unplanned and unexpected pregnancies from women. Men know exactly what they were doing before getting women pregnant during sexual situations and providing fornication. Men need to stop acting so shallow in the dating pool today as well by stop acting like hoodrats and acting so horny. Men need to respect women and teenage girls when they date them and stop acting they are just a piece of meat to have sex with them and get them pregnant before marriage. Women are human beings that deserve more respect from men. It is not good and damaging to have children and get pregnant out of whitlock because it represents the Satan kingdom.

Say to person next to you; live by God plan and plan he has for you

Say to person on other side of you: respect each other intimate and spiritually on earth

Women and young females are acting so fast and providing fornication because Satan and his spouse Litith is putting those thoughts in their minds to go out to act like hoodrats to tell them to have sex as well as telling them to get abortion. Satan and his spouse Lilith is putting evil

thoughts in women heads to not wait until they are married to have sex with men. Women's minds are in battle with the devil and his kingdom. In order for households to become humble and holy to worship God, families need to have family bible study with their children to adults everyday and some days a week to teach them what is right for God's kingdom and what wrong to do for God's kingdom. This method will stop negative gossip among others by ending bear false witness against others, providing false reports thinking they know it all about everyone, increase cheerful giving to churches nationally and globally, stop killing and killing in cities like Chicago, New York City, Los Angeles, San Francisco, Philadelphia and Seattle. Women that continue to support abortion will not get you in the Tabernacle past the brazen altar to the Holy of Holies. You can recite the prayer from the LGBT to Straight Recovery Program that involved lusts and fornication. In order to succeed in the tabernacle, you must denounce sin and temptation in your life that let Satan encourage you to make the wrong and ungodly decisions in your life. Before you catch yourself making a bad decision that does not represent God in your heart, you need to seriously think is this a Godly decision that I need to be making in my life. Women need to think before they act on fornication and sexual situations is this Godly decision that I need to be doing to prevent unexpected pregnancies, rape and incest.

If you have a woman sitting next to you, turn to them and say make Godly decisions to live please God and follow God in your life to honor new life on earth.

Women need to read and familiarize themselves with Hebrews 13:16 because it is important scripture to learn to become a strong christian and disciple. Women can help others and lead them to righteousness and stop demonizing more women to live for Satan and his kingdom. I pray for women that are righteous to lead them to let fathers be part of their child lives in the household that had children the right as well spiritual way by having sex and children after marriage.

The church has started a building fund for the congregation for church building purchase because staff are tired of hosting services and bible studies in public auditoriums and rental public places. Church average attendance every week is 668+ members and/or visitors based on tithes and offerings envelopes collected from ushers during services. Church has a total of 4,587 engaged members that live in various states with some former members of Salem Baptist Church of Chicago that spoke to me saying they are leaving Salem Baptist Church of Chicago privately because they say my preaching is engaging and has a good foundation helping the homelessness as well as low-income communities. As ordained Bishop of the congregation, I do not mean to do that to provide competition, but I believe God is leading them and more people to my congregation to be their church home.
