## COMMUNITY AND ECONOMIC DEVELOPMENT

### Economic Opportunity for Low/Moderate Income Americans

Church Board of Directors like to bring jobs from the Community Employment Program to Dubuque and Iowa. Homelessness Prevention Bill is still sitting in committees on Capitol Hill to provide more subsidized

and affordable housing in states in the United States of America. The bill give state \$1 billion to provide more low-income affordable housing and subsidize housing to end long waitlists. The church has been gaining more

support among men because more men are more engaged within the church than women. Church has support from men age 25-44 nationwide. Church has 53% of support from men in the United States of America

based on community survey statistics. The church board of Directors paid the \$850 user fee to the IRS on September 29, 2014 because we knew we will have more than \$10,000 budget. Monthly treasurer reports are updated weekly and monthly by Office of the Treasurer in Chicago. Nicolas Hobson is a proponent of the Sentencing and Corrections Act that is sponsored by Senator Cory Booker (D-NJ) because he supports criminal justice reform. Homelessness Financial Relief Program is expecting to make good impact to 76 homelessness in Chicago this year by providing them with financial assistance. Church website is almost done with its updates. Website will be fully ready soon. Pastor Nicolas Hobson is challenging the Democrats in 2016 as an independent on economy and fiscal issues because I support protecting Americans pocketbooks from higher taxes.

Lower taxes will increase wages at employers nationally to help people get out poverty. Employers will have the revenue to give their employees a pay raise if taxes remain low. Lower taxes will put more money in their pocketbooks on a daily basis. What is the Democrats plan to grow the economy without big government and raising taxes? How will they work with the Republican controlled Congress on economic issues without big government? Ronald Reagan said "Government is not the solution to the problem. Government is the problem." Black communities and some Americans nationally are complaining among themselves about the Democrats raising taxes and causing more Americans to have less money in their pocketbooks. Pastor Nicolas Hobson actually heard and talk to low-income families on the streets of Chicago about their fiscal issues. He talked to low-

income Americans during summer in May-August 2015 about Democrats keep raising taxes on them. Angry low-income Americans say they never have extra money because they feel they pay too many taxes. Chicago resident told him she was out of work for 21 months and start her new job in April 2016. She is financially struggling paying her utility bills, so the church Homelessness Financial Relief Program has helped her with financial assistance. Chicago resident talked to the church treasurer office staff for financial assistance. Chicago resident is a single mother with young children that lives on the Southside of Chicago. Homelessness Financial Relief Program already provide financial assistance to 65 Chicago residents and likes to expand the social service program to city of Dubuque.
