Save Sinners and Ungodly People on Earth

What is wrong with the world?

What is one way you can accept that without sliding into self-hatred?

Where can you go in your neighborhood today to proclaim Christ?

How could his powerful presence enable you?

We need to save sinners on earth to help people turn their lives over to Christ. We need to help Jesus as servants to the lord to save sinners, so they can live righteous and obedient to the lord. You need to recruit twelve disciples for yourself.

1 Timothy 1:12-17

Matthew 28:16-20

Church has 3,911 members that continue to increase every week because my sermons are powerful and truthful. New members this year is looking for church home and get baptized in Jesus name, son and Holy Ghost. People say they are tired of struggling and want Jesus to come into your life. We need to treat Jesus as our rock. God will lead and guide you in ministry. God will enable you daily. God will help you live a faithful life. God will glorify you forever. Worship God as a disciple. Over 648 new members are scheduled to be baptized next summer that were postponed based on pandemic. I want to let people know that I do not donate to political campaigns because I am a centrist and swing voters. Church spent \$90.32 this month on church operations and helping the homeless based on reports from the Board of Trustees. Bylaws and Rules Committee members met this week to consider amendments to Bylaws on new structure of ministries. Amendments are posted on the website later today by committee. Church subcommittee on Church Ethics released reports on my personal finances saying I earned \$10,567 in 2020 adding love offerings from members and new visitors. I want to say this based on facts about Democrats economic policies. When Democrats raise tackles, it causes businesses and retailers to increase their prices for products and services in our economy. Biden and democrats have to be bold with me that they will not raise taxes or implement no new taxes in this election. I support democrats 44% and Republicans 31% for Congress in this election. I voted Republican for Congress in 2010-2014 elections because I support lower and less taxes for economy. Based on my election voting record since 2004 on average, I am 42% Democratic and 39% Republican/conservative. People tell me that I am a conservative Democrat.
