

Giving God Thanks

As a christian and disciple to the Lord, we must continue to give God thanks for what he has done in your life. We must thank God for your health and keeping you healthy in your life. If you suffered from Covid and got sick from Covid during the pandemic, you need to be thankful to God that you are healthy and you recovered from Covid. We need to continue to praise God to continue to have mercy on us to save us from living in the darkness. When you are homeless and living on the streets this thanksgiving holiday, you must be thankful if you are able to get to homeless shelters to be fed thanksgiving meal at your local church or organization. If organizations distributed thanksgiving meals in your local communities where you are sleeping on the streets, you need to be praying and thanking God for that thanksgiving meal from that organization volunteers and representatives who gave out those meals to you. We need to pray to God every day to give him thanks because creates and controls the universe.

That's why we need to be thankful for our personal finances and able to give in church to God with tithing and offerings. We need to be thankful that we are able to give to God in order to receive blessings from God in our life. You do not have to give a lot of money to the church as you give to God based on what you have. What you have in church at the time that you should give it to God in order for God to bless you in your life to either get you out of debt, improve your personal finances, good health, save you from evil, and praise God as the rock of your salvation. When you give to God in church, you are honoring and praising God as your provider, protecting, deliverer and healer.

Things we need to be thankful for:

- We need to be thankful that we are not homeless and living on the streets if you are not living on the streets in abandoned buildings, trains and sidewalks outside in the cold. Homeless people that live in homeless shelters are not homeless because homeless shelters that they stay at are their home until they are able to get their own place to pay rent and living expenses.
- Homeless men and women sleeping on trains and outside in abandoned buildings need to be praying to God and be thankful for living and surviving another day on earth in the cold with no place to stay. As a Chicago native born and raised in Chicago, I know how cold it gets in Chicago this time of the year through mid-April of the next year until it gets warm.
- People need to be thankful and give God thanks for them being able to pay their bills while living paycheck-to-paycheck and dealing with inflation.
