Ignore Satan Promises

We do not need to listen to the devil and what he promises at his throne in his kingdom because the devil is evil and creates enemies for us. The Devil tries to take things away from us. The Satan kingdom wants to lead us down the path of darkness and sin. The devil wants us to be dependent on him and the world. God and the Holy Spirit is who we want to set our focus on to live the path of righteousness and humbleness to get into heaven. God and the Holy Spirit is who we want to focus on to get through the Tabernacle at the Holies. Satan promises will lead us to evil and stir up enemies toward God on earth. Devil loyalty is not the place you want to go on earth because Satan tries to take things away from us, let us live in a struggle and poverty very badly under depression, take away food and housing along with our financial recovery from God cause us to be homelessness at homeless shelters for long period of time under depression and oppression, live on the streets to be cold and hungry, do not want us to be successful in everything we do, bad luck daily in the world, make us unsure of ourselves with less contentment towards God and the Holy Spirit, it is important for us to fast to prove our loyalty and love for God and the Holy Spirit, encourage us to be takers and not help others. We need to ignore the devil and get wickedness out of our families to prevent breakups and negative conflicts.

God wants us all to have eternal and everlasting life in heaven forever. God wants us to have eternal and everlasting life after we die on earth.
2. We need to pray for evil and wickedness around us. For example, I continue to pray for people in Detroit and Flint that have mental health with bad anger management, mood swings, like stir up negative conflicts with others. I pray for mental health because individuals are treated like criminals.
