

Build your Tabernacle Healing in America

This nation needs healing because too many Democratic legislature is approving ungodly things, such as abortions, same sex marriage and legalizing marijuana. This nation and more people is following the path of unrighteousness and sin. We are supposed to be one nation under God. We should not be killing each other. We should not be stealing from businesses and one another. Everyone is supposed to treat our bodies as a temple with no smoking and drunkenness. Everyone in this nation supposed to support and believe in traditional marriage with one man and woman with children. Everyone in this nation need to oppose same sex marriage and LGBT. Everyone in This nation needs to oppose homosexuality because God hates homosexuality and sin. Women need to honor life and God by supporting and believing God is creator of human life on earth. Sunday school will be a virtue in Mississippi during pandemic.

How are you showing fruit of the spirit in a way you treat others?
How can you better love your neighbor?
When have you felt vulnerable and unable to fix situations?
How did you see God come through for you?
What would it look like to trust God's grace today?
How can you live and work from a place of rest and trust in his love for you?
How do you reveal that you truly love those around you?
How can you show Jesus love to someone through your actions today?

Church staff and myself will come out to announce new incoming treasurer, communications director, Director of Church Operations, secretary after thanksgiving holiday while congregation transition to Mississippi. First lady will leave her job as Director of Church Operations to be focus on one role in the congregation to help me manage married couples ministry. My interim the secretary did not want to move during the transition.

When you look and think about balance sheets and income statements from businesses in this country, it is not good to raise taxes because it will cause employers to be financially squeezed. Businesses need to be allowed to pay less taxes to employ more Americans for jobs in communities. Less and lower taxes will help increase wages for small and medium-sized businesses based on balance sheets of small businesses and entrepreneurs. Less and lower taxes for businesses in this nation to help keep businesses open and employ more Americans for jobs. Democrats wants to raise taxes or have taxes for businesses so high that they are unable to employ new Americans and get Americans out of poverty. Democrats like slow economy and force economic policies and high taxes on businesses and employers, so they are not able to hire more Americans in this country. It is what is economy is like in Chicago, Detroit, New York metro area, Philadelphia, Pittsburgh, Los Angeles and so on. Small businesses and entrepreneurs deserve opportunities to make on decisions to expand, raise wages, offer child care for working parents and employees, employee benefits, paid sick and maternity leave, overtime pay.

- Lower and less taxes for small businesses will allow businesses to expand

- Lower and less taxes for small businesses will raise wages and incomes in economy
- Lower and less taxes for small businesses will improve financial outlook for households
- Lower and less taxes will give businesses the revenue to offer child care for employees
- Lower and less taxes will give businesses capital to pay for employee benefits
- Lower and less taxes will give businesses money to pay for sick and maternity leave
- Lower and less taxes will give businesses money to provide overtime pay for employees.

Many African Americans live on low and fixed income, such as social security, welfare programs and government programs. African Americans deserve employment and jobs to get off of fixed income and welfare programs. Lower and less taxes in economy will increase small businesses and jobs for African Americans in black communities. Higher taxes will take away jobs and small businesses in communities. Democrats need to be cautious to raise corporate tax because it will cause an increase for employees in the warehousing industry and wages will be reduced due to tax increase from democratic party. UPS and FedEx warehouse employees receive weekly paychecks that are low income. UPS and FedEx workers work and live paycheck to paycheck. Lower and less taxes in economy will get Americans out of poverty and stop living paycheck to paychecks. Democratic party like Americans to struggle to live paycheck to paycheck. African American households to prosper very easily in economy to prosper to get out of poverty. That's why I am 43% Democratic and 41% Republican/conservative. Low income and middle class need opportunities to save more money in personal bank accounts and retirement accounts. More African Americans deserve to be living affordable housing in their own place to call their own, not shared room rental housing with poor living conditions managed by slumlords. Black students need to try harder to succeed and stop acting like they have too much time on their hands. My post election support for Trump-Pence 44% and 44% Biden-Harris.
