

Signs of Deception in our Society

Civil Disobedience

Civil disobedience means refusal to comply with certain laws. People are refusing to comply and obey ten commandments in the bible today. People still judge others by providing false reports and bear false against others on earth. Donald Trump acts and inciting violence on our democracy and the US Capitol. Many Americans refuse to accept reality of Donald Trump lost US election in a legitimate way. Donald Trump and his family failed to stick to reality to admit lost of an democratic election. Yesterday trump supporters died to listen to their ring leader known as Donald Trump. I had respect for Rudy Giuliani in the past, but not anymore because he helped said Donald Trump to cause the darkest day in America. The 25th amendment needs to be invoked in these final days of the Trump administration. I had some Trump supporters as members of my congregation. I had been on the phone yesterday and upcoming days with the office of the Membership Development Ministry to cancel their membership with the congregation.

We should not be tearing each other down to destroy reputation and be dream busters in this nation. People told me today and yesterday afternoon by friends about being happy to leave Alabama based on hatred attitudes of people trying to tear people down to ruin everyone reputation. My legal counsel for congregation has started an independent investigation for state of Alabama and its people. Legal counsel has received legal documents from US Department of Justice and FBI officials. The facts are there and true about Alabama. Alabama do have history and hatred of people. Legal counsel encouraging Americans that moved to state recently and other Americans not to move there based on legal accusations, fraud and corruption from its people from the state of Alabama. Legal counsel received true and accurate information from state of Alabama. Legal counsel will work with FBI and US Department of Justice incoming days during this investigation. Alabama state and local governments are being investigated along with businesses in Alabama. US investigators will be involved to work on the investigation in Alabama. Legal counsel is receiving more documents to his office during the investigation. Legal plans to expand his investigation with the US Department of Justice and FBI next week for the state of Alabama. Donald Trump provided civil disobedience during his first term.

Real Americans and individuals build dialogues with one another. Real Americans and individuals have an open mind with each other, not destroy and tear people down. All Americans should be living in safety, freedom and liberty. We must be good Americans to set good example to help the poor and low-income Americans because we must prevent violence and unrest in this nation. For example, no kill, stealing and destroying each other. We must respect God and Holy Spirit because we need to stop trying to make ourselves powerful or look powerful over God. We must not resist God in this nation. We must learn and do good by having fruit of the spirit in our hearts and minds. We must have good contentment and judgment when we make life decisions.

Romans 13:1-2
Psalms 82:3
Isaiah 1:17
