How to Live Obedient Life in Christ?

We need to keep our hearts and thoughts pure in order to protect our eternal life in heaven. As a disciple and Christian, we must read and stay in the bible daily to stay away from devil and sin forever. The Devil wants us to gossip and be in negative situations, but we must resist that on earth. It explains why I have not spoken to my mother and family for 2-3 months because some family members like to gossip. I avoid listening and taking too much baggage.

Everyone needs to let God and the Holy Spirit work in our lives. If you are homosexual or LGBT, God will not work in your life because God hates homosexuality. People who continue to sin and disobey God's commandments will not receive praise from the Lord. People that sin and live disobedient on earth do not study the bible and pray, live their lives down the path of unrighteousness. You do not need to be smart and negative to people because you need to do what people tell you to do by respecting authority or your elders. God cares about us daily because he praises and watches over us.

- Stop watching TV shows and programs that do not align in God principles
- Stop listening to music that do not align in God principles
- Show respect to people around you in public and private settings
- Show respect to people and authority figures in public and private settings
- Be polite and harmless
- Pray and meditate daily on Jesus
- Stop speaking false reports about people

God will place you in a loving and new community because Jesus uses us. God loves you during your suffering. God will give you courage. God will help you with overwhelming and out of control emotions. God can help you with opportunities. God will assure you and he understands your emotions and physical needs. God uses people in their failures because it is all about God's grace. God's grace is amazing. God will give you guidance in your life. God will protect and give you wisdom that please you. God will help you reveal who you are. God will help you learn his word. God will make you accessible to him daily. God can give you encouragement and tell you who to encourage in your life. God can help you meet your spiritual and physical needs. God will empower you to walk in faith in the Lord and Holy Spirit. God will forgive you for your sins. Your faith must be strong and eternal to God as a Christian and disciple.
