When we live our lives by christian and spiritual war is not good for mind and soul. It is not good for the soul to live our lives by spiritual warfare. You are safe in the church and believe in the church. Everyone has to believe spiritual warfare is real in our everyday lives on earth. Our souls and minds are at war with the devil. God is leading us and teaching us the path of righteousness. Wicked and sinful people live their lives by spiritual warfare. Church burnings and cross burnings are part of spiritual warfare because people that are evil provide spiritual warfare. We must read and pray daily to prevent spiritual warfare everyday on earth.

The devil is taking away things from us as a denying ruler of hell. Devil is allowing our lives to sin out of control by poisoning our minds evil and darkness. For example, Congresswoman Maxine Waters is being poisoned by the devil to influence people to start violence and mob rule. We do not need to take advantage of Free Will because sometimes it lead to hell and Satan controlling our minds and souls. We need to be cautious with using Freewill in our lives because we want to have good contentment to get into heaven. We need to God and Jesus at the throne in heaven to control our lives on earth. Righteous people on earth need to stay strong and keep faith in God by removing the devil out of their minds and souls forever. Devil is a thief in our lives and take things away from us while God likes to be our deliverer and provider. Devil is evil because Satan is the one to make us sick and try to provide death around us on earth. Devil is controlling people to join gangs that influence violence in urban and rural cities. Devil is closing the gates of heaven for us while God is trying to bring us to the light to open gates of heaven for us. God gives us longer lives on earth while the devil is trying to shorten our lives on earth. Devil is trying to bring us Down.
