Christians and disciples do not let the devil motivate them to make daily decisions. Christians do not let the devil motivate them to live in fear and the flesh. Christians and disciples pray for their success in school and college. Christians and disciples pray to the Lord for their health and safety. Christians and disciples pray to the Lord while reading the bible daily.

### Ways to Eliminate Fear and Righteous

- Live in peace while seeking the Lord
- Do not live your life in oppression and fear
- Condemn the devil in your everyday lives
- Pray to God for your prosperity
- Eliminate sin in your inner circle

You need to make better choices to meet new people because it is bad choice to make friends with people that do drugs, smoke marijuana, and hangout like hoodlums as well as drug dealers. Christians and disciples do not make friends with sinners and hangout in the wrong crowd of people. Do not let the devil tell you meet bad people that cause you to live path of the flesh and darkness. Do not listen to the devil and idolatry to cause you to live by the devil and flesh to incarceration, cannot get employment or career, dropout of school, act like takers, plan everything in your lives by too much Freewill.

Personality of hoodlums and drug dealers are witnessing high incarceration throughout their lives, live and migrate to homeless shelters, dealing with anger management and mental health issues, sell drugs and cocaine to other hoodlums, bad brain cells, not smart and lack intelligence, hustle other people for money, not goal oriented people, no good academic satisfactory, do not take challenges to succeed and stay in school, and get involved in gangs. You do not want to live your lives as an ex- offender because you want to prevent being on parole and getting your record expunge in order to get employment. Children need two parents in the household to teach children right and wrong. Children need two christian parents in the households to teach them right and wrong to teach them to pray, read the bible daily, set goals for themselves to stay in school, appreciate parents and family, respect parents and family, teach children how to become cheerful givers and give back to their communities, teach children how to be intelligent and respectful to others around them, prepare them for college, stay away from gangs and idolatry.

Christian parents can teach children to have fruit of the spirit in their hearts on earth to eternal life in heaven.
