

Contentment in Christ
John 20:21-23

Heavenly Father,
Thank you for our spiritual gifts to serve your kingdom
Thank you for our health and continue to heal us from sickness and diseases
Guide and help people and families dealing with mental health and health conditions
Guide and help people and families living in poverty
Help to be our healer and provider
The world is not our provider because you are our provider to be our source
Guide us and help more people in this nation not to be a tax collector
Guide us to stay away from Mammon.
Help us hold on to our gifts of eternal life in heaven
Help make us stronger Christians and live under your grace
In Jesus name, Amen

We need to start receiving the Holy Spirit and his grace. We have to understand God died for our sins and we are supposed to live obediently under his grace. We do not need to be receiving and getting possessions from the world and love the world more than we love Christ Jesus. We do not need a Golden Dome to protect us in this nation. God is our personal Savior that is our protector. Doing this Golden Dome is letting Christians and disciples know we are all about mammon.

Peace is with you as a Christian and disciple that is not judging and judgemental to others daily. It means that these homeless shelters in this nation need to have the same operations as Star of Hope Mission in Houston with a five month spiritual recovery program. Pacific Garden mission and Helping Up Mission have the same program to help clients turn their life around to let God straight their paths to be on the path of righteousness. Youth and children in public need to stop gossiping about young and older people like they are disrespectful. Youth and children that do that do not have good read and math scores in school and some people support closing the US Department of Education. These people in public that are wicked need to familiar themselves with Proverbs 10:6-14. Youth and children act like that because parents are raising their children as free spirits and no discipline in the households. People need to be looking up to my generation born up to the 1980s. People born up to the 1980s did not walk around with a swag and sagging their pants low in public. Older generations that walk around with a swag today are trying to act young in their 20s. You have young people today with no responsibility and do not want to go out and get a job. They want to listen to the Democrats in Congress and state local governments to depend on living on government subsidies, such as SNAP, welfare and Medicaid. There needs to be work requirements implemented for SNAP and Medicaid to help more people improve their work ethic. Democrats in Congress and in state governments do not want to do that because they want more Americans to sit at home feeling depressed with mental health issues and hate on other successful people. Laziness is a sin in the Bible.

People in homelessness and poverty need to seek God and make peaceful transition to God kingdom not the world:

1. Seeking permanent housing and having a spiritual environment in the household.
2. Manage your money better as a Christian and disciple by paying tithe and offering in church
3. Do not be a taker
4. Do not be a tax collector
5. Do not be a hater and listen to sin and temptation
6. Stop receiving gifts from the world and let God be your supplier and provider in your life
7. Recruit your 12 disciples and invite people in your communities for weekly Bible study
8. Stop loving and living for the world
9. Read the Bible daily with your family and/or friends

When I read John 20:23, I think about my family members on my mother and stepfather's side of the family in Chicago, how they encourage people not to live obediently to God and live as a disciple to the kingdom. They try to get me to stop using my personal finances to help the poor and homeless in the community. I did not listen to them and continue to help the homeless and poor as a cheerful giver. I forgive them for their sins, but other Christians and disciples say that I need to continue to pray for family members.

When I lived in Detroit as a resident, my well being was always okay or average because I never had a chance to rent an apartment except for one time. I always lived in a shared room with strangers and other tenants were always instigators and haters with mental health problems. I did not have a good well being in Cleveland because I was struggling financially living in a shared room living situation. My living situation in Philadelphia was good because I started out at Sunday Breakfast Rescue Mission now called Philly House. I moved to West Philadelphia with a person I really got to know to become roommates. I did like Louisville because my living situation was not all that good there and I lived in poor shared room housing. I was able to work on job assignments with People Ready in Louisville. My living situation was not good and about average in Atlanta because I always ended downhill with my finances and ended up living in poverty. I always need family to help me financially send me money from Chicago. I did not do well financially in NYC because I always ended up living in poverty because of high prices of housing and living expenses. Baltimore was h
Just a boring town all together.
