Living in a Struggle in Our Society

Some people are living a struggle in our society because they cannot go to family and friends for financial support and help. People are distant for family and friends for help during good and bad times because they cannot go to others for help. People expect others to help them and pray for them in bad times. That is what I am talking about fake and false Christians. It is cousins and family members in this nation that do not speak or visit families because they rather help themselves. That's why my church is highly-motivated and commitment to help the homeless and low-income Americans. Some low-income Americans are dealing with mental health are living in depression and oppression because low-income Americans and homeless people has no one they can go to help them in their bad times. Families that are not Christian-like and do not have fruit of the spirit in their hearts because they are takers. God will judge takers and they are putting their gift of eternal life in heaven in jeopardy. It is families and friends faults why young people and youth join, run away from home and focus on their own life with own priorities without families and friends, become addicted to drugs and alcohol, and incarceration. It is family and friends fault why other family members are incarcerated because families lack abundance in the household to help each other in bad times. My mother used to steal money out of my SSI income as my payee for herself.

God will destroy your soul and will for God while you decide to be a slave for the devil. God will destroy your soul while you are disobedient; create evil and enemies around you. Our suffering on earth leads to Jesus and heaven because Jesus wants us to be obedient and honor him. Suffering among homeless men and women lead to worshipping in God because God is testing your heart and soul as a homeless man or woman on earth. Suffering among low-income Americans lead to worshipping God because God is testing your heart and soul on earth.

- Families need fruit of the spirit in their hearts if they want to seek and God to come through for them. Families need faith in God to get them out of the struggle in their life. Satan is putting all of us in the struggle to cause us to perish. Families will not prosper if you are not sticking to the Lord covenant and his law. I have some family members that are all about greed and hold on to wealth in their bank accounts that do not like helping out other family members in bad times. People will join gangs to gain abundance in their lives because they are not getting what they need from families and friends. Friends need fruit of the spirit in their hearts if they want to seek God to come through for them. Friends need faith in God to get them out of the struggle in their life. Satan is causing friends to perish by not letting God come into your heart. Friends need to obey God's covenant.
- Families and friends push others' family and friends to join gangs to have abundance. Gangs lead to idolatry, sin and incarceration. My deceased uncle lived an incarcerated life because he was born and raised in a family that did not provide him with abundance, so it led him to a life dealing with idolatry, gangs, sin and darkness. All of it lead to incarceration because of a lack of abundance for him in the family. My uncle in Atlanta should stay where he is and not come back to Chicago because he should not want to go back to Chicago to a family with lack of abundance. If you want to suffer on earth, you

can suffer in Jesus name.

Ways to Improve Your Life and Improve Suffer.

1. End and eliminate corruption in your life
2. You must have a proud heart that is pure to worship the Lord. You need to cut off people that slander and corrupt you on earth
3. Prevent yourself from having an idle soul by strengthening your faith in God. You will continue to suffer with an idle soul because you will witness hunger, go through the struggle with your life and well-being, create enemies and a devilish attitude around you, gaining possessions by the flesh and sin.
4. Honor Jesus' resurrection when he witnessed the struggle to be killed in Jerusalem. We must honor Jesus' resurrection when he was killed and raised from the dead on the third day in Jerusalem. We must honor Jesus at the cross.
5. Repentance and remission of sins should be preached among us.
6. We must glorify to the Lord together on earth
7. Escape temptation of evil and Satan in your life forever because you must be faithful to the Lord and believe the Lord is faithful
8. Do not let other people constrain and prosecute you that lead you suffering and path of unrighteousness
9. Be patient with the Lord as Christians and disciples
10. Have a good conscience while seeking the Lord to live a righteous life on earth. You need to stay away from people that are evildoers, speak evil to you and provide accusations against you to try to corrupt and prosecute you.
11. Have hope and eliminate fear in your life

Congregation has new Homelessness Ministry Director that will start on Monday. Congregation will start distributing food to the homeless men and women living in poverty. Congregation will feed one hundred homeless men and women in Detroit this weekend. Church spent \$107.74 this month on helping the homeless and church operations. Starting Right now, I will make new priorities and goals in my life by new Christian people and stopping to people I have been

friends with because they do not know the meaning of the fruit of the spirit and being a Christian. Family will not see or hear from me no more because I will worry about my own life and priorities. My family and relatives know and have the fruit of their spirit in their hearts. That is 100% fact. As an ordained Bishop, I need to remain distant from that. My family is not Christians because they bear false witness against other people and negatively gossip about people in public and private environments. I just want to say to my family is have a nice life while you on earth. My mother laughed at a friend of mine name Clinton Lewis that is an evangelical leader in the Cook County and Chicago area in 2015. My mother has no right to gossip and laugh at anyone that have a career because she has been out of the workforce for over ten years with no income. When I applied for SSI benefits in early 2015, my mother were my payee and using my SSI income as an income stream for her being picky with my SSI. She were stealing money out of my SSI income to pay cable bills in the household. Representatives at Social Security Administration says she was not allowed to do that because they call it misuse of funds. I moved to Iowa and had my SSI income changed in the State of Iowa. Right now, my mother has no income or money. I am not able to help her financially because my cash flow every month is very low after I pay for housing, utilities, food and household expenses.
