

## **Series: Self Control in Holy Spirit**

### **Topic: Let God Move and Praise You**

God move me and he can move you, but you have to be obedient to the Lord daily to eternal life in heaven. You cannot expect to go to heaven with sin and having too much baggage. People need to stop taking in too much baggage from other people because they are trying to damage you. You cannot get into heaven with too much baggage. God will not move you and Praise You when you have or taking in too much baggage. Homeless people have too much baggage or take in too much baggage from other people. God move me because put me in places where he want me to be. God move me from places where he do not want me to be.

I found out from legal team that US Supreme Court is closer to getting the votes to overturn legalization of Marijuana US Supreme court is closer to making marijuana illegal in the United States of America. I oppose legalizing marijuana in United States of America. Also, church motion include overturn abortion and same Sex marriage to make both illegal. Legal team is confident that supreme court got the vote to pass the motion at the United States Supreme Court. I strongly expressed my support for the motion to make marijuana, abortion and same-sex marriage illegal. Motion States women will be allowed to admit children to foster homes. Motion States same Sex marriage will illegal in the United States of America and couples will not allowed to get married in churches by ministers, pastors and bishops. Motion will make Roe vs. Wade illegal and criminal. Motion States people caught smoking will be sent to prison and serve prison sentences. Prison sentences will be determined by judicial system. Marijuana will be banned in all stores and retail establishment. Motion will stop shipments of illegal drugs and marijuana in United States of America. Motion will crackdown on Planned Parenthood to provide audit by Internal Revenue Service and Federal government. My goal will be achieved economically to end the war on drugs in the United States of America. Anyone caught smoking and selling marijuana in United States of America will be prosecuted and criminalize. US Supreme court amended to motion to allowed people caught smoking pay a \$100 fine. Motion will be implemented for Planned Parenthood to pay \$500 fine to Internal Revenue Service (IRS). Current support among Supreme court is 4-4 with one justice undecided. Motion will take effect immediately after agreed to by supreme court. Churches will be fined by Internal Revenue Service for marrying same Sex couples or lose tax exemption status, civil unions will be illegal in United States of America, Americans will have the option to challenge ticket in court or do court-ordered community service.
