Praising God each Day of your Life

What will you praise God for today?

How has he inspired you to praise him after hearing someone else's story?

Where do you find hope in dark times?

In what winter season has God given you the hope you needed?

What praise for yourself or others did you hear today? How did your heart respond?

What Spiritual gifts do you have? How are you using them to serve others?

We need to praise God and rejoice in Jesus' name. People need to take God seriously and take our need to him daily, not listening to Satan and devil. We need to be grateful to the Lord daily. Hope in God can help you resist sin and darkness on earth forever. We need to start being thankful to people daily on earth that are able to help us in good and bad times. You need to spot your needs to God. You can serve God without being overwhelmed. People need to set an example for young people to do good for others. We must have integrity and seriousness towards God. Chicago residents and families come first. Three more members have tested positive for Covid-19 that is 293 out of 3,915 members. I remain negative about Covid-19. Board of Trustees approved a budget narrative for 2021 with a 14-10 vote.

Higher taxes reduce income in households in states because higher taxes put households based on true facts. That's why states like Illinois deal with population declines each year because Democrats increase taxes on households and working families to increase homelessness and poverty. It is some African Americans angry at Democrats in states that increase their taxes and take more money from their households to cause them to live in poverty. In this election, I want a speaking as a independent and Democratic conservative about people casting your ballot on this election that will help keep you out of poverty and homelessness. Lower and less taxes raise small business income to allow them to hire and expand to hire new American unemployed and underemployed Americans.

Be thankful For your mentors

Let God guide you to encourage others to seek and follow the Lord

Let God fill you with mercy

Let God praise you when you are alone

Let God encourage you in bad and hard times

Let God place hope in you

Romans 12:3-8

2 Samuel 23:13-17

Micah 7:2-7

Psalm 148
