Forgiveness of My Lost Times

We need to praise God and keep our sight on him. People that provide threats and violence do not have sight on the Lord because they like to provide hate on some people and community leaders trying to care for others. We need to pray to the Lord to ask, what he wants us to do next in our lives that is righteous in your heart and soul. If you are living in a city that is violent and so many people are depressed, the city and community is not for you. When I was living in Chicago living in poverty and economic hardship, God is trying to tell me something at that time telling me to get out. After I got out of Chicago, my personal finances got better and lift me up out of poverty. When I started my congregation on Westside of Chicago in 2014, church started out struggling Financially because God was trying to tell me something. God was telling to move the congregation location out of state. When I moved to Cleveland in 2017, God were trying to tell me to get out because I was living in poverty and economic hardship in Cleveland economically and Financially. When I was living in Philadelphia in late 2018-2019, I was living in poverty and struggling economically, paying utilities and rent. God was telling me to move out of Philadelphia. I was struggling financially while paying rent and utilities in Cleveland and Atlanta. God was telling me something by telling me to move back to Southeast Michigan. The church has two members this week with 3,913 total members. 389 out of 3,913 members are positive with Covid-19 based on testing. 291 members are hospitalized on ventilators and others has symptoms. wear a mask to cover your face, such as nose and mouth to stop spread and virus. According to scientist and Health experts, they say people need to cover their nose and mouth in public to prevent control of the virus. If you do not want to wear a mask, stay home. I help little people and poor by starting my own person homelessness initiative in 2011.

Praising God is the key to survival in your life during good and bad times. we need to seek and praise God during this pandemic because it is what we need to do for our survival. We need to be obedient to God during this pandemic by honoring each other and life without violence, abortion, murder, providing false reports, idolatry, homosexuality, LGBT, stealing and killing. We need contentment and stop being unsure ourselves. If you live in poor housing or shared room housing, you do not like it at poor permanent housing need to ask God what is the next steps for you. If you have faith in the Lord, Jesus will tell you to get out and better yourself. We need to honor elderly and senior citizens, children, youth, career and business people, working class in this nation. If you hurt anyone in your life, you must apologize for all your wrongdoings. God wants our presence to comfort us and calm our fears. Our trials are somehow mysteriously preparing us for eternity. Forgiving someone means that you release yourself as a jungle over the offender and transfer judgment of God.

Donald Trump is wrong person and Republican to be in oval office because he do not help the sick during this pandemic. Covid-19 continues to rise in this country. He do not care about refugees while imposing travel bans on Muslim countries and others overseas. He is racist towards minority communities.

Lower taxes in the economy raises incomes for Americans to end poverty and homelessness. Lower taxes in economy decrease poverty in households to give Americans to pay their bills and household expenses.
