PASTOR HOBSON SUPPORT IN BLACK COMMUNITIES IN THE SOUTH AND MIDWEST

Pastor Hobson has high respect from Chicago black communities, advocacy and leadership because he knows that it is time for black communities in this country to stand up to reform our criminal justice system.

Pastor Hobson is now 44% affordable on violence and gun control in black communities and 48% unfavorable on gun control.

LAW ENFORCEMENT AND JUSTICE IN BLACK COMMUNITIES

Security guards and law enforcement officers today need to be held accountable for their unconstitutional actions. Caucasian law enforcement officers need to be held accountable because white/Caucasian law enforcement officers do not respect black/African-Americans as human beings. White/Caucasians take away rights from black/African-Americans and black communities today. Caucasians do not care about black communities because it is less white/Caucasians that care about black communities today. Caucasians need to respect black/African-Americans like they do people in their racial background. Pastor Hobson tired of Caucasian looking down to black communities in today society. We have a corrupt and bias criminal justice system in this country. People that have a child that has been murdered by police should not have to wait over a year for court action and/or settlement. Caucasian police officer that shot Laquan McDonald sixteen times on the streets of Chicago should not have been released from prison. He needed to be held accountable. We need reform and changes in our criminal justice system. Black communities deserve to live the American dream like Caucasians do because it is more Caucasian/white police officers killing black/African-Americans today. It more Caucasian police that are harassing black/African-Americans nationally. Black communities nationally deserve their constitutional rights and free speech. That is the truth today. It is White/Caucasian law enforcement officers alienating black law enforcement and security guards today to do unconstitutional actions. Pastor Hobson wish he knew about the gun control legislation to take action on gun manufacturers in this country that Hilary Clinton talked about during Democratic debates. I would have supported the legislation on gun manufacturers and prevent guns being in the wrong hands.

Caucasian law enforcement officers need to stop disrespecting people in black communities nationally. Church community and hearts goes out to the families of Sandra Bland, Trayvon Martin, Eric Gardner, and Laquan McDonald because we are sorry that these black/African-Americans lost their lives to gun violence from unconstitutional white/Caucasian police officers. White/Caucasians need to stop harassing people in black/African-Americans because they violate human rights of black communities. Black communities lack justice and peace among Caucasian/white people today.

Pastor Hobson supports more economic resources in black communities today because he support more black owned businesses and opportunities to help black communities succeed. The truth is that was discussed by staff in this ministry is that Caucasian/White people act like they care about homelessness and black communities, but they do not. White/Caucasians look down on black communities and homelessness in Chicago. Caucasian people walk passed them on the streets of Chicago and do not give them nothing, but Pastor Hobson was happy

to give those same homeless people food to eat and money to buy food in Chicago. Pastor Hobson has given homelessness in Chicago snack food, fruit and/or sandwiches to eat while he was downtown Chicago or on the subway. Pastor Hobson support black owed businesses in black communities because too many White/Caucasians control corporate America today. We need to restore justice in black communities by providing reforms in our criminal justice system because where is the justice in black communities. Black communities are angry because black lives matter. Pastor Hobson is disappointed at mayor Rahm Emanuel on his leadership and disgrace towards Chicago black communities.

New Direction for Black Communities in USA

Pastor Hobson appointed new revolution to help stand up to black men in Chicago in January 2016. This country belongs to all of us, not just the white elites and communities. He created this movement to allow Black Men to stand up and say enough is enough. He created this movement to allow black communities to stand up and say enough is enough, save our black communities, youth and children. The name of the movement is Put Black Men in Chicago to Work Now. Black/African-Americans in this country

deserve a fair share economic opportunities than white/Caucasians. We need to fix our broken criminal justice system and provide necessary reforms. Mayor Rahm Emanuel is not right for taking the black vote for granted in Chicago win re-election by providing cover ups of the killings of black/African-Americans. Rahm Emanuel was wrong for the cover up for killing of Laquan McDonald. Anita Alvarez was wrong not taking immediate action on the Laquan McDonald case to make sure the police officer that shot Laquan McDonald was held accountable. Rahm Emanuel was wrong to close schools in black communities and mental health clinics in Chicago. Now people with problems with mental health have lack of resources for treatment. Pastor Hobson support what Cook County Commissioner Deborah Sims comments and action to build a mental health clinic in Roseland community. It needs a mental health clinic in the Roseland community. Mental health clinic in the Roseland community will provide hundreds of good paying jobs for community residents. I am encouraging Cook County residents not to vote for Anita Alvarez in Illinois primary up to March 15, 2016.

The Lord test the righteousness, but his soul hates the wicked and one who loves violence. Psalm 11:5

HUMAN RIGHTS IN BLACK COMMUNITIES

Black/African-Americans deserve the right to walk down the street in any communities without being harassed by Caucasian/white police officers today. It has happened to some Black/Africans in Iowa because black communities in Iowa are not given the same opportunities as white elites and working class. Caucasians in Iowa looks down at black/African-Americans in Iowa today. Prison Ministry staff in Chicago says we need more people like Homelessness Outreach Coordinators in Iowa like Kate Brondyke that works at Hillcrest Family Services in Dubuque. Black communities in this country deserve to succeed as right like other racial backgrounds. Black communities deserve a right to live the American dream, not struggle financially and homeless. It should be more black/African-Americans today living in supportive housing and homeless shelters today. Bernie Sanders says our economy is rigged and our country belongs to all of us.
