

Be Disciple, Overcoming Fear-Part II

Young adults need to stop being about fear and foolishness. Young people act like fools when They gossip about people in public and around them. Young adults that do not respect their elders and older people around them are fools. People that set goals and do better for themselves overcome fear by doing what they have to do to succeed. People work for your successes because opportunities are not going to come to you. We need to act on the word daily to have faith and praise God. You need to develop your faith with God. People in their thirties and older does the something like they do not have respect and common sense, such as fear and foolish, act like fools and gossip about people they do not know to think they know it all, do or did not set good career goals about themselves and hate on successful as well as sophisticated people.

Tell person next to you: do not be fool or foolish

Tell person next to you: be a leader to righteousness , not follower

Young people in this economy today need to not hate, appreciate. Young people had good mentors in high school and done well. They can make families proud and able to help families during good and economic times. Young people do not pray and obedient to the Lord because they get possessions by the flesh. Young people need to avoid what people think of you. Make new Christians friends because they will not judge and discriminate you on your success and being sophisticated. Everyone on earth need to seek God and Holy Spirit to maintain your obedient and salvation to the Lord. Young people hate on successful and sophisticated people are on some foolishness. Young people gossip and disrespect other people. Young people act ghetto and hoodlums hate on successful people. Young people are dream Busters are foolish. Young people need to stop hating people and appreciate people because people usually need to ask people for help Financially and career. Children and youth need to stop judging and hating successful people because people are fools that hate successful and sophisticated people. People that do this are done based on envy, fear and foolishness. People need to stop thinking they know it all about people. Children and youth gossip and disrespect other people because they are fools. Children and youth do foolish things because they listen to too much baggage and idolatry. Children, youth and youth adults sag their pants, smoke marijuana and are not motivated in academics are fools. Children, youth and young adults need to stop acting foolish in school, in public places and on the streets, sagging their pants, being homosexuality and providing fornication before marriage, and stop contraception. Youth, children and young adults need to be saving themselves for the right person for eternity. Youth and young adults need to rebuild your motivation to achieve your goals

Do not let sin and devil control you and have you lose your salvation. You can do that by staying on the path of righteousness and obedience. You need to keep your heart pure to prevent baggage and barriers in your life. We need to confess our sins quickly without delay. We need to take God word as a Spiritual food daily. We need to speak to the Lord in prayer daily. We need to fellowship with other Christians all the time. Open with prayer to the lord daily. Love and be yourself like God created us in his image. youth and young adults in every city in the United States of America act wicked and sinners daily by trying to provide trouble for people. Young men and women need to stop caring for themselves by trying to provide for the bad around them. Black people act like the devil towards African Americans while killing and provide violence of unarmed African Americans

It is like what I said and preached in the past about share the same vision and mind of Malcolm X. I preach the truth about our society for African Americans. I am a different type of African American and bishop of my own congregation. We must come together as African Americans to unite and solve our problems. We need more black leaders in our communities. We need more black businesses and institutions. We need to build black businesses and institutions in our communities to protect our people from violence and brutality. Unarmed African Americans killed by police brutality could have been alive today. African Americans are oppressed by police and Law enforcement in this nation today causing us to live in fear toward police and institutions. We need to close private funded prisons to reduce incarceration of black people. I call for equal rights of African Americans in this nation. Malcolm X is my favorite civil rights leader because He spoke the truth about our people and society for African Americans. I have respect for Muslim people, but oppose radical talk against the bible and Christianity. We need to respect all religions in this country. Black mothers need to support black men while they are living in the struggle. I participated in ending private prisons during community meetings in Chicago.

End the struggle in black communities

Eliminate conflicts and domestic violence in black households and communities

Stop fighting each others and beating each other up

Stop fighting each other to tear each other down each day

End racism and race inequality in the workplace and society for our people

Help black prosper without fear to make sure we can access a good education and careers

Freedom for our people without oppression, depression, brutality and violence

Black people deserve freedom and hope in this nation

Malcolm X was my manhood as an Afro-American
