Restaurant management need to stop treating homeless people like criminals because they need to be more understanding to homeless men that have no place to go. It is homeless shelters that tell homeless men to leave out early morning and allow back in homeless shelters in evening or night. Security guards at malls and food courts need to be respectful and be understanding to black homeless people. Homeless men live on the streets with no place to go during the day. Security guards and law enforcement need to stop assuming things about African Americans to treat them like criminals. Police officers need to stop treating black people like criminals and bad people. Police officers need to respect black men and women have rights in this country like white people. That's why neighborhoods in this country are becoming more segregated because white people like to start trouble with black people to incarcerate them. Black people in this country can be mind their own business and not messing with nobody until a white police an officer comes to them causing problems. It means white police start problems with black people to incarcerate them. White people complain about African Americans, so white police officers can incarcerate them. Police officers like to mess with homeless people on the streets with no place to go while sleeping in building walkways, abandoned buildings and houses, parks, train stations and airports. Police officers need to provide more honest interrogations without violence.

My heart and prayers goes out to African Americans and their families because black communities are under attack by community police as well as white police officers. Thats why I support lower taxes for economy because higher and new taxes hit African Americans first in households. Higher and new taxes cause African Americans to have less money in their households to pay bills, food and household expenses.
