

Cherish the Lord as Your Savior on Earth

It is good to pray to God daily because it will prevent the Lord having access to your soul and mind. Devil wants us to be angry and envious to each other. Devil wants us to disobey God commandments by providing fornication and lusts. Devil do not want people on earth to cherish the Lord because our minds are at war against the devil. Devil wants us on earth to be unsure of ourselves. Contentment is important to succeed in the Holy Spirit and Tabernacle. Devil is trying to prevent us from succeeding to the Holy Place in the Tabernacle. Devil wants us to be in other people business on earth and not worry about their own destiny. Devil wants us to judge our lives by sin, the flesh and pride. Devil wants to take away our testimonies and blessings to God.

Do you want a happy life with God?

Do you want to live life in sin and the flesh?

If you say yes to first question, you chose correctly. You can let the Lord transform and control your life. If you need a job to get you back on their feet, Lord can lead you to that job and/or employment. If you have problems with your personal finances and live in poverty, Lord can help strengthen and improve your finances. When you pray to the Lord every night and day at home, you are allowing God to come into your household. You are letting God come and stay in your household. God can inspire you in your life to make progress on your goals and accomplishments on earth. God will help you where you need to be while on earth, but you must worship and serve him. God will put your mind where it needs to be to have your focus on holy Spirit and God. God is your source and trust must be on the Lord. Some people on earth think that serving the Lord is a joke like my mother and father. My mother thinks that serving the Lord as a servant of God and pastor is a joke based on the ungodly comments she said about my friend Clinton Lewis previously when I told her he is a pastor. I do not believe serving the Lord is a joke because discipleship and stewardship to God is good on earth until you die on earth.
