Earning, Giving and God Provision: A Biblical Perspective on Salary and Prosperity-Part II

1. Dignity of work and hard earning a salary
2. Understanding biblical prosperity
3. Principle of generosity and giving
4. Trust God provision
5. Honoring God with our firstfruits

I want to speak more on this about people in America and Democrats in Congress. It is people that rather live on the government to receive Medicaid and Social security. It is many Americans that do work or never had a job to pay taxes into Medicare, Medicaid and Social security. Those Americans are making these programs insolvent for future generations. Medicaid and Social security deserve to have work requirements. Democrats do not support that because they want more Americans to sit at home and live in poverty with raising taxes and regulations. If Congress reduces taxes for employers and small businesses, it will give employers more capital to have money to offer healthcare to their employees. Democrats do not support that either and that is why they continue to raise your taxes while they are in power. You have people out here that act thuggish and get into trouble that do not want to work. Those people look at others that have jobs depressed and like they want to go into rage with themselves. These thuggish and hoodlums out here do not have any responsibility and do not want to learn the meaning of hard work to get ahead. I said I am thankful for people that are working and paying taxes to the government to keep the government programs like social security, Medicaid and Medicare funded and solvent short term and long-term. People that want to prosper and succeed economically need to get their act together.i encourage those people that do not want to work and live off the government to go out and find employment to get out of poverty. People need to stop listening to liberals and Democrats. We need to make our neighborhoods and communities safe for young people and children by keeping more people out of trouble and motivating them to get jobs. It is time for communities and neighborhoods to come together.

We need to let God and his kingdom prosper us in our life, not the world. Do not let this sinful world raise you up in the path of unrighteousness. We need to rely on God to prosper us by not relying on mammon and being a tax collector. We need to end drug dealing and gangs in this nation to stop violence and killing in our community and neighborhoods. We must stop leaning on our own understanding and stop thinking about ourselves and ambitions. We must care more about life and others in our communities and neighborhoods.

1 Timothy 5:18

Proverbs 10:4

Deuteronomy 8:18

2 Corinthians 9:6-11

Matthew 6:33

Proverbs 3:9-10
