

Series: Warfare

Impact on Friendships and Family

I want to start out with my own personal story about people and friends I impacted to do better for themselves. I have made friends with some homeless men and women in Chicago, Detroit and East Iowa that were struggling and living in poverty at the time. After I became friends with homeless people in the past, I have motivated and encourage them to do better for themselves to get back on their feet. That what to people I met and around me is encourage and motivate people to get out of poverty and back on their feet. People in Detroit told me about feeling anointed around me because they tell me that I am a righteous person. I earned friendships from homeless people and friends by helping them out financially and morally.

We need to be friendly to each other in this country so that we can agree and disagree with each other. We must not bear false witness and/or corrupt each other. This MOB rule in this country is ridiculous and should not be motivated by people starting violence. These African Americans killed by police brutality and racial violence in this country is really ridiculous. Violence by The group Antifa is ridiculous in this country attacking conservatives and conservative journalists. MOB rule with the republican lawmakers recently on Capitol Hill is ridiculous during impeachment inquiry.

Ways to live in a world with peace

Be honest with people on earth

Do not slip in the cracks to listen to the devil by lying and living your lives by the flesh

Do not corrupt other people on earth

Do not tear people down on earth with hate and envy

Do not be tempted to live your lives in the darkness and the flesh

Do not be a taker on earth

Do not steal or kill on earth

Adam and Eve lived for one hundred years, but died for their disobedience to the Lord. Adam and Eve disobeyed God when they ate from the tree of good and evil. People need to know the true facts about the bible to say the first humans created on earth were black. It means white Caucasian people created on earth later. It is reason why people are dying daily on earth because We are at war between heaven and hell. Devil is controlling people to kill, steal and encouraging people to provide violence on earth. Devil is causing us to live our lives on earth so we can end up like Adam and Eve that lived their lives as obedient servants that did not listen to God. God need to take back his kingdom on earth so all of us can be righteous and obedient to God in our lives on earth. Devil wants us to live our lives by darkness and flesh.

We need to try to help lift people up and assist the poor as a cheerful giver. Foundations and banks provide rules and regulations in order to issue grants to businesses and organizations. It needs to be more fruit of the spirit in their hearts to give. Bible says people have to give in order to receive. Wealthy people should not be regulated by governments in order to pay fair share in

taxes to help the poor, low-income and middle class. Wealthy in this country should want to help poor and low Income Americans. Rich people that like to hold on to their own money are all about greed. What are they thinking? When low-Income and middle class succeed, America succeed. When we live in a nation without racism and violence, America succeed with peace, love, respect, friendliness and morals. I believe this country will become moral, respectful and peaceful again after Donald Trump is voted out of office in 2020.

Gay marriage

Children need loving and respectful parents that love them during good and bad times. If parents have children that are gay or LGBT, they need to still love them during those times because Some parents start to hate and distance themselves from their children. It is children that become homeless and live at homeless shelters while 15-17 years old. Some teenagers live at homeless shelters because they found out their children are gay. That is wrong and not how you suppose to care and love your children. I still believe children need a mother and father in the household because it is my strong religious belief. I believe in the story of Adam and Eve. We all need to believe in Adam and Eve. Adam was created to represent men on earth. Eve were created to represent women on earth. According to the bible, all couples supposed to be man and woman with children.

Genesis 2:15-17

Genesis 3:17-19
