Stay Away from Curse and Humiliation during Your Spiritual Journey, Part III

After you have strong faith in God and the Holy Spirit, good things will happen in your favor. When you live your life with peace, God will come in your favor. When you are cautious with freewill and let God control your life on earth, God will come in your favor. When you keep sinners and enemies out of your life and inner circle, God will come in your favor. When you live your life by the covenant and God plan, God will come in your favor.

God can do many good things for you if you read the bible and be faithful to him in your daily lives. People that continue to sin and live by the flesh are not in the Holy of Holies in the tabernacle. People that sin and live by the flesh do not pass the brazen altar in the tabernacle. People that do not want to have faith in the Lord want to do everything in their lives by the flesh, such as listen to sinners and wickedness, live life a thug and hoodlum, lack education and economic opportunity, live their life with codependency, get things and life possession by the flesh and devil, listen and be slave to the devil, live your life by anger, envy, idolatry and darkness; sin. People do not want to have faith in the Lord because they rather have Satan rule them on earth to lie, steal, kill, humiliate people, provide a curse on people to be unrighteous, bear false witness against other people, hate on other people prosperity and success, provide evil to others.

First lady Jennifer and I will meet with our doctor next month to be tested for Covid-19 again during this pandemic. First Lady and I has been tested negative for Covid-19, but I had Covid-19 in March and April 2020 with all the symptoms. I had to quarantine myself for fourteen days in March and April 2020 because I suffered the symptoms of Covid-19 and the virus is no joke. In March and April 2020, I had high fever, cough, shortness of breath and difficulty breathing, body aches, headache, lost of taste and smell, sore throat, runny nose, inability to stay awake, nausea and diarrhea. After March and April 2020, I will start wearing face masks in public. Subcommittee on Pandemics from Bylaws and Rules Committee has been hosting weekly briefings on the Covid-19 pandemic.
