

Obey God Word of Truth, Part II

It is important that we respect life on earth by opposing abortion because abortion is murder. Christians and disciples understand that God is the creation of human life on earth and newborn babies in the woman's womb come from the creation of God. We need to be thankful that Roe was overturned at the United States Supreme Court, so we can respect and preserve life on earth. When we respect life and protect life on earth, it is the way to maintain and reserve your place in the Holy of Holies in the Tabernacle. People that continue to get abortion is damaging to God creation of human life on earth. People that continue to get abortion is living in Satan kingdom because it is the devil that poisoning people's mind on earth to get abortion and kill babies in the womb. Abortion is part of sin and lust in the bible. Life is precious on earth and children deserve to live a life on earth. Women need to make better choices in their life to reduce abortion on earth along with rape and incest. Women need to stop letting their hormones control their lives on earth and start thinking the spiritual way. It means saving yourself until you get married and spending time with your spouse until eternity. We need more strong men and women in this nation that make babies and remain together in the household and marriages. Separation among men and women with children is part of sin according to the bible. Families with children and babies need to stay together because it is God and spiritual way. Women should not be raising children by themselves in the households while men run away from being responsible for raising the children that they help bring into this world. It is time for everyone to be pro-life in this world and in this nation. The following procedures need to be put into place into law to reduce abortion, rape and incest:

1. More sex education in schools and sex education workshops in communities
 - a. It needs to be more sex education workshops and classes in black communities
 - b. Sex education workshops will teach people about preventing abortion and unwanted pregnancies
2. Reduce sexual violence
3. Increase contraception for men and women by selling good condoms that will prevent pregnancies
4. Paid family leave
 - a. Lower and less taxes for small businesses will provide this, so employers will be able to provide paid family leave for employees. Businesses can easily have the revenue to provide paid family leave.
 - b. Congress needs to provide states additional funding to small businesses to provide paid family leave for employees at employers and small businesses. It means legislation should propose \$50 billion from Congress without raising taxes or inflation
5. Low and affordable healthcare, no federal funding for abortion
6. Free childcare

7. Reduce disparities in pregnancy outcomes
8. Prenatal and postnatal care
9. Mental health support
10. Safe and affordable housing

New office for Adoption Services help women prevent and dealing with sexual violence disparities during pregnancies and mental health.

It is important to maintain our place in the Holy of Holies in the tabernacle. It is important to get pass the brazen altar in the Tabernacle by opposing homosexuality and same-sex marriage. All couples on earth are supposed to be men and women with children. Adam represents men and Eve represents women on earth. It means all couples are supposed to be men and women. It is no such thing called Adam and Steve. Adam and Steve is fictional. The foundation of a family is supposed to be man and woman with children in the household. It means foundation of a family supposed to be mother and father with children in the household.
