Series: Do not kill Your Godly Spirit to the Lord
Do Not Believe the Hype, Pt I

Say to person next to you: Do not believe the hype. Say to person on other side of you: Do not believe the gossip. When you are near anyone that is gossiping about other people in your inner circle or family, you do not want to be near them and you need to keep your distance. Say to person next to keep your distance. If you stay around people that talk hype and gossip, you will most likely head down that path. Those situations can lead you to sin or unrighteousness. When you succumb yourselves to believe hype and gossip, it will lead you in a place you do not want to be. It's not good to judge people and bear false witness against other people.

Read 1 John 5:21

In order to loose that trait to gossip about others and bear false witness against others, you need to be truthful to your selves in order to 100% holy and humble to God. I am talking to young people and youth in the room about not believing the hype and/or gossip for someone else have told you about another person. People that like to do that type of stuff are bad apples that spoils the bunch. You need to do all you can to keep bad apples out of your inner circles in order to be holy to God and Holy spirit. People continue to gossip and sell hype to other people will not get you through the Tabernacle in the Holy of Holies. People continue to gossip, sell hype and judge other people will not get passed broken altar in the Tabernacle. It means people that gossiping and telling hype to other people are still sinning or providing sin. Our nation will be better off if no one judge and bear false witness, gossip about other people in the

families, in public or private place, on your jobs, hangout with your friends or family. If you have a family member that gossip and provide hype about other people, want to immediately end that conversation and say a prayer to pray for them. People gossip about others need prayer. When I talked to my mother time to time, she always gossiping about other family members and people in public. That's why I do not talk to her as much because the phone conversations start off talking about something and my well-being. Then phone conversations lead into gossip and nothing but hype. I never want to hear hype and gossip from those phone calls. My mother could really judge me when she gossip and talk hype about other people. I have to always say a special prayer for her because she is really ungodly and reason why I strongly believe I was not raised in a christian household.

Things you can do to keep hype and gossip out of your inner circle:

1. Sacrifice yourself not to take it in when you hear it from others
2. Sacrifice yourself not to take it in and distance yourself from it right away
3. Sacrifice our minds not to listen to gossip and let people tell you hype
4. Let people come to you to be truthful to you to avoid people gossiping to us think they know it all. This will avoid talking to people that is judgmental about other people.

To avoid gossip, hype and being around judgmental people, you want to live your christian life and by the following scriptures to be distance from the world. We live in a world full of gossip, people like to sell nothing but hype and judgmental: ~~2:15-17~~ 1 John 2:15-17, 1 John 3:1-19, 13-24; 1 John 4:1-11, 1 John 5:5-6, 1 John 5:21, James 4:2-11, Romans 1:25-26.

Due in a world nothing but hype and gossip. It means we live in a world nothing but sin and like to sell hype to other people. It goes around in workplaces, homeless shelters, street homeless and people on the streets living in poverty and food insecurity.

If you have a pastor preaching more gossip in the pulpit, you want to leave and distance yourself from that church. You need a church home that will preach the word of God in a good way to encourage more people to seek God in their life. People do not need a pastor that will discriminate them trying to tear people down before bringing them to word of God. You need a pastor like me that is an ordained Bishop and worked my way up as a bishop from pastor. It is wrong to preach more gossip and negativity about people than word of God to guide them to word of God and Holy Spirit. That's why I am more cautious to encourage people to seek God in their life in my preaching to congregation. That's why my congregation continues to grow every week and monthly. Tell person next to you: you want to change course in your life. Some pastors should not be preaching in the pulpit today to help people seek God in their life. As Bishop and a warrior, I say we need pastors of churches that will preach the word of God and worship God in a good way to encourage others to serve God and Holy Spirit. We do not need pastors in this nation preaching more hype and/or gossip in their sermons than the word of God.

Gossip and promote hype is leading to fear to other people because one thing it will lead to low self-esteem and sarcasm among other people. Young people and young adults make gossiping and promoting hype into a career that make them go out to continuing to be judgmental and gossip about other people daily. Ministers, pastors and evangelists will be judged on how they preach the word of God to others on earth. If you need to be baptized in the Holy Ghost, Associate Pastor of Outreach will be teaching classes to baptized people and new members in the Holy Ghost. Rev. Minister

rest and evangelicals that preach the word of God will be judged on judgment day on how they preach the word of God to others on earth. You need to be baptized in the Holy Ghost. Associate Pastor of Outreach will be leading biblical classes again to be baptized more people in the Holy Ghost.

2 Corinthians 1:8-9

That's why churches are struggling financially and economically because pastors and evangelicals are preaching the word of God in a good and positive way. Evangelical Christians should not be preaching the gospel by talking hype, discriminating and gossip, judgmental too much about people on earth. It is reason why more people are becoming less religious year after year because evangelicals are preaching the gospel the wrong way to encourage others to seek God and Holy Spirit.
