God works through us based on our authority. Prayer is legal rights from to inhere in earth affairs. man exercising legal authority to involve influence on earth. God listens and do things for you because you love you. You know Jesus loves you because he protects you from evil, enemies, trials, tribulations and temptation. You know Jesus loves you because he continues to be your deliverer and provider. If you are struggling in poverty, you are able to go to people for help and support. Jesus Loves you to answer your prayers and praise you. You must stick to the covenant and bible daily to keep your faith in God.

- Nothing will not happen on earth without God

How to stay encouraged with God?

You need to keep evil and enemies out of life to maintain their strong faith with God. You must only be friends with People that are Christians and disciples that are worthy and live with fruit of spirit in their hearts. People need to stop being selfish and keep their wealth and money to themselves. People need to start saving more their income and donating some of their money to help the poor and homeless. While rich and upper class hold on their wealth, it is homeless people and low-income children trying to figure out where their next meal will come from. Money can be used for common good for food and supplies at homeless shelters, nursing homes, social service organizations and people sleep on the streets.

Christians and disciples seek God input daily and weekly by prayer and faith in God. Christians and disciples seek Godly mentors to live strong, Christians and faithful lives on earth. Christians and disciples are not supposed to hang around people full of lusts. It means do hangout with hoodlums and women that tell you to disobey God and be unfaithful to God. It means do not hangout with women that tell you not to honor life by getting abortions. Women need to make better choices to meet men that will devoted and committed soulmate to them after they have babies to unnecessary rape and incest. It will keep more fathers in households to raise children. Marriage is like a partnership that is all commitment. Relationships are time to get to get to know each other before marriage. Divorce never exists in Christ because couples supposed to be committed to each other until marriage.
