Honoring Our Mothers on Mother's Day

Heavenly Father,
Bless our mothers that are homeless and living in poverty
Bless military mothers
Thank you for our mothers and help us appreciate our mothers
In Jesus name, Amen

We need to start respecting our mothers even in single parent households. Boys are disrespectful to their mothers today. Mother's need to start caring for their children by looking and caring for them at any age. My mother really never took care of me in the household that well because my mother was low income and never had a job during my sister and I childhood. I was mostly raised by others in the family that was able to help me financially. You are supposed to love your mother unconditionally like you love God at the throne in the kingdom. I appreciate what my mother was able to do for me during childhood and now. We must work hard not to dishonor your mother. We need to start giving back to our mothers. We need to stop taking our mothers for granted as a child and adult. Always provide a positive attitude with your mother.

I want to say to mothers that they need to honor life on earth by giving children and newborn babies opportunities to live a full life on earth. Abortion and reproductive rights are dishonorable. Mother's need to stop listening to liberals and Democrats about reproductive rights and abortion making mothers sinful and dishonorable to life on earth. Mother's need to respect life in the womb of that newborn baby. Those are humans in the womb.
